## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest determining a first transmission energy setpoint as a function of the first received transmission frame error rate and a first transmission quality, wherein the determination of the first transmission energy setpoint is responsive to an update trigger and determining a retransmission energy setpoint as a function of the received retransmission frame error rate and a retransmission quality, wherein the determination of the retransmission energy setpoint is responsive to the update trigger, as specified in independent claims 1 and 14.

The prior art does not teach or fairly suggest continuously adjusting the first transmission energy setpoint on occurrence of a first transmission error in the first transmission at a processor wherein the first transmission error is received from a receiver and adjusting the retransmission energy setpoint on occurrence of a retransmission error in the retransmission, wherein the retransmission error is received from the receiver, as specified in independent claims 6 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2472
